

A Concise Checklist and Bibliography of the
Reptiles of
Sweden

Rune Midtgaard

RepFocus Publishing

RepFocus Publishing's regional checklists, such as this e-book, are based on data compiled from the literature and presented in the RepFocus website (www.repfocus.dk). The purpose of publishing these checklists, not only as website pages, but also as e-books in pdf format, is to present concise checklists accessible to everyone with an internet access. Once downloaded, the checklists can be used on computers, padlets and mobile phones, also where internet is not available.

The checklists contain only few photos, and there are no identification keys included. However, it is the author's hope that the checklists may ease the first steps in the process of identifying species.

The checklists are free of charge, partly to reach users who cannot afford buying field guides or handbooks, and may be copied and shared with only the following limitations:

Full credit must be given when the publication is cited.

Photos may not be used for other purposes without permission from the photographer(s).

Acknowledgments

The author would like to thank the following people:

C. A. Gram (1920–1992) and **Klaus Dræby**, founder and former director, respectively, of the reptile zoo *Terrariet* (Vissenbjerg, Denmark) for granting me full access as a photographer to the animals in their care. Many of the photos taken during this collaboration are included in this or other RepFocus publications.

At the time of writing, a more detailed description of the distribution of each species along with references can be seen at the RepFocus webpage:

www.repfocus.dk/GEO/Sweden.html

The website is updated continuously and includes distribution maps of most (eventually all) of the world's reptile species. To the best of the author's knowledge and ability, the information presented in this publication reflects the state of knowledge current to January 1st, 2026.
